

## **SRS5 Quick Start Guide**

**Please refer to the SRS5 Manual located at [www.csrees.usda.gov/neers5](http://www.csrees.usda.gov/neers5)**

The steps needed to get started in SRS5 are below. Please follow this sequence to install, set up and import data into SRS5. Once the importing process is complete you can view the reports for your counties in SRS5.

1. Install SRS5 (Administrator rights required)
  - a. See Section 1.1 for Typical Installation
  - b. See Section 1.2 for Custom Installation
2. If prompted - Install Digital Certificate
  - a. See Section 1.3

**User Name and is ERS; Password is ERS – both are case sensitive**

3. Set up Working Database
  - a. See Section 1.4.1 Database Management
  - b. See Section 2.1.1 Create a New Database
  - c. See Section 2.2 System Configuration to set up working DB
4. Import CRS5 Data
  - a. See Section 9.3.1 Create SRS5 IMPORT Folder
  - b. See Section 9.3.2 Saving CRS5 Data to the IMPORT Folder
  - c. See Section 9.3.3 Importing Data
